Don, the document is too big to e-mail. I know MDNR has an FTP site, does it allow me to upload? If that doesn't work I'll have to mail a CD, I guess.

Dan,

Would you copy me on the final version, I have to do a concurrence and I need to know to what I am concurring.

Brenda, David,

EPA's third Five-Year Review Report for the MEW Superfund site was recently completed, and a copy of this document was mailed to the public library in Cape Girardeau (our local document repository for the site) on July 31. As this document discusses the results of the samples EPA collected earlier this year from both of your properties, I felt it was appropriate to notify you both of this document's availability as soon as possible. Please let me know if you have any difficulty accessing this document, or if you have any questions on it.

Sincerely,
